Why Choose Trinity?

Our professional pediatric nursing staff meet children's needs in a nurturing environment with supportive programming that enhances each child's growth and development.

CARE:

Other services offered at Trinity include Occupational and Physical Therapy, Speech Therapy, and Early Intervention

CONCERN: Since 1888, Saint Joseph's Center has continued to grow and expand to meet the needs of the community. In an effort to assist families in caring for their medically fragile and/or technology dependent child, Saint Joseph's created Trinity Child Care Center. The program is licensed by the Pennsylvania Department of Health as a Prescribed Pediatric Extended Care Center, and, as such, is a viable alternative to in-home- skilled nursing support. Trinity is NO COST to families with approval from Medicaid (MA) insurance providers. Families who desire high-quality services for their child while they are at work or school will feel comfortable knowing that their child will receive physician ordered care by professional pediatric nursing staff.

Interactions with other children ensures that these medically fragile children do not experience isolation but rather become connected to a community.

COMPASSION:

Our caring and skilled staff offers supportive programming that enhances each child's growth and development.
